PROFILE SUMMARY

As a Web Developer with **3** years of experience, I have developed a strong skill set in ReactJS, Responsive Web Designing, NodeJS & MongoDB. My ability to work efficiently and effectively with these technologies has resulted in consistently exceeding client expectations. I specialize in developing website modules from scratch to production, ensuring that all code is well-structured, maintainable, and scalable. I am passionate about creating software solutions that deliver exceptional user experiences and I am committed to working closely with clients to understand their needs and goals. With a strong attention to detail and a proactive approach to problem-solving, I have a proven track record of delivering projects on time and within deadlines. I am committed to staying up-to-date with the latest industry trends and technologies to continue delivering exceptional results for clients.

SKILLS

Front End Technologies | HTML, CSS, Sass, TailwindCSS, Javascript, Typescript, Jquery, ReactJS, Vite (*Learning NextJS*)
Back End Technologies | NodeJS, ExpressJS, MongoDB, Mongoose
Development Tools | Git / Github, JIRA, Postman, VSCode
Cloud | Google Cloud (Cloud Storage)
Team Activities | Agile SDLC, Sprint Planning, Requirement Gathering, Research & Development
Soft Skills | Active Listening, Positive Attitude, Adaptability to Change & Problem Solving

PROFESSIONAL EXPERIENCE

AXIONED - Front End Web Developer (2 years 5 months)   Oct 2021 - April 2024

- **Beauty Ingredients SASS Solution** - API service offering ingredient details for beauty e-commerce.
  - Worked on the development of SASS-based web application using **React** key aspects, including components, state management, routing, vite config and styling.
  - Actively contributed in more than *15* successful production releases.
  - Developed multiple essential modules using React such as the Analytics Dashboard, enabling **35+** live brands to gain actionable insights into user interactions on their Shopify sites.
  - Implemented seamless communication between the Front-End and Back-End through API Integrations in multiple modules throughout the website.
  - Resolved Code Smells / Bugs, significantly improving code quality standards through the use of static code analysis tools like SonarQube and ES-Lint contributing to an enhanced and error-free system.
- **Shopify Snippet for Products & Product Ingredients Info**
  - I played a pivotal role in developing a Shopify snippet that is currently utilized by over **35+** live brands. This snippet enables product filtering and displays product ingredient information.
  - Leveraged technologies including HTML, CSS, and J-Query to create a versatile snippet for Shopify stores.
- **Miscellaneous**
  - Actively participated in Requirement Gathering & Refined Backlog Tickets using JIRA in close collaboration with clients.
  - Conducted comprehensive research and development activities on modules yet to be implemented, ensuring a proactive and forward-thinking approach to project development.

PROGRAMMING / FYND - Software Development Engineer-1 (6 months)   June 2024 - Jan 2025

- **Fynd Design System - React Component Library (Storybook)**
  - Built **9+** reusable components using Storybook library, creating modular and accessible components to streamline development.
  - Delivered scalable solutions for a key organizational project, addressing production bugs and optimizing front-end performance.
- **Fynd Core Platform** - Vue.js (E-commerce Website)
  - Developed and maintained features for a high-impact e-commerce platform, enhancing usability and performance.
  - Participated in **6+** production deployments, resolving critical issues swiftly to ensure operational continuity.
- **Miscellaneous**
  - Fixed numerous **UI** and **Functionality** issues, contributing to application stability and improved user experience.
  - Worked closely with the team, sharing ideas and suggestions to make the projects better and more efficient.
  - Took an active part in discussions and problem-solving to help improve the overall outcomes.

EDUCATION & CERTIFICATIONS

Master's in Computer Application (Present)
Lovely Professional University (Distance)

BSc. in Computer Science
Thakur Ramnarayan College of Science & Commerce (Mumbai University)

12th HSC Board
Smt. J.B.Khot College of Science & Commerce

10th SSC Board
St. Xavier's High School

PERSONAL PROJECTS

React Portfolio Site

Convo - Realtime Chat Application

My Job Portal - Web Application

NextJS Car Showcase

ACCOMPLISHMENTS

MVP (Most Valuable Player) Award

For demonstrating ownership by taking initiative and responsibility without needing direction. Proactively identified and resolved dependencies, showing adaptability to challenges and changes

Client Feedback

Commendable Client feedback with **90%** wow-score for successfully delivering and suggesting the requisite website modules, thereby enhancing the overall end-user experience.
